Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. Applicant's information disclosure statement of March 16, 2005, will be considered at such time as any claim becomes reasonably clear and definite.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "configured to" in lines 8, 10 and 12. It is unclear what parts of the disclosed structure are claimed.

Claim 1 recites the limitation "resultant structure" in lines 11-12. It is unclear what structure is meant by this limitation.

Claim 2 recites the limitation "double-layered recording medium" in lines 2-3. Because ~~three layers of the disk medium have already been recited~~, it is unclear in what sense the recording medium is "double-layered".

Claim 2 recites the limitation "a perpendicular magnetic system" in line 7. It is unclear whether this limitation refers to the "perpendicular magnetic system" of line 4, or to some additional system. Furthermore, it is unclear whether this limitation refers to a drive, a head or some other system.

Art Unit: 2653

Claim 5 recites the limitation “from one of such shielding members to the other” in lines 21-22. There is insufficient antecedent basis for the limitation “the other” in the claims.

Claim 5 recites the limitation “configured to” throughout. See rejection above for claim 1.

Claim 5 recites the limitation “resultant structure” in line 14. It is unclear what structure is meant by this limitation.

Claim 5 recites the limitation “all set” in the last line. It is unclear to what value each distance is set.

Claim 8 recites the limitation “configured to” throughout. See rejection above for claim 1.

Claim 8 recites the limitation “the other shielding member” in line 19 There is insufficient antecedent basis for this limitation in the claims.

Claim 8 recites the limitation “resultant structure” in line 10. It is unclear what structure is meant by this limitation.

Claim 9 recites the limitation “a double-layered recording medium” in lines 2-3. See rejection above for claim 2.

Claim 10 recites the limitation “the write head element” in lines 3-4. There is insufficient antecedent basis for this limitation in the claims.

4. Regarding claims 1-11: In the absence of a reasonably definite interpretation of a claim, it is improper to rely on speculative assumptions regarding the meaning of a claim and then base a rejection under 35 U.S.C. 103 on these assumptions (*In re Steele*, 305 F.2d 859, 134 USPQ 292

Art Unit: 2653

(CCPA 1962)). See MPEP 2143.03. The claims will be examined in view of the prior art at such time as they become reasonably clear and definite.

Conclusion

5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
